Education

University of California, Berkeley — Berkeley, CA
Ph.D. in Environmental Engineering, GPA: 4.0/4.0 — 2021–2026
Dissertation Committee: Joshua Apte (*Chair*), Robert Harley, Ronald Cohen, and Thomas Kirchstetter

University of California, Berkeley — Berkeley, CA
M.S. in Civil and Environmental Engineering, GPA: 4.0/4.0 — 2021–2022

Manipal Institute of Technology, Manipal University — Karnataka, India
B.Tech. in Mechanical Engineering, GPA: 9.82/10.0 — 2014–2018

Research Interests

Applying atmospheric modeling, physics-informed machine learning, inverse methods, and data assimilation to problems in air quality, wildfire smoke, climate, and exposure disparities.

Professional Experience

Postdoctoral Scholar — Stanford University
Environmental Social Sciences — Fall 2026 – Present
Developing atmospheric modeling and data-driven methods to improve wildfire smoke attribution and inform wildfire and prescribed-fire management

Graduate Student Researcher — University of California, Berkeley
Environmental Engineering — Fall 2021 – Summer 2026
Developed measurement, data assimilation, and inverse modeling approaches to identify air pollution sources and evaluate emissions reductions for improving air quality, climate, and exposure disparities.

Research Associate — Indian Institute of Technology Delhi
Air Quality Research Group — Summer 2018 – Summer 2021
Led field measurement campaigns and source apportionment analyses to characterize chemical variability in $PM_{2.5}$ *composition during festival fireworks and the COVID-19 lockdown.*

NTU-India Connect Research Scholar — Nanyang Technological University Singapore
School of Mechanical and Aerospace Engineering — Spring 2018 – Summer 2018
Designed computational and experimental models for non-invasive detection of carotid artery stenosis using thermal imaging and flow diagnostics.

Scholarships and Awards

- **Jane Warren Award**, Health Effects Institute — 2025
- **JN Tata Gift Award**, Tata Education and Development Trust — 2025
- **Outstanding Graduate Student Instructor Award**, UC Berkeley — 2024
- **STEM*FYI Graduate Diversity Fellow**, UC Berkeley — 2023
- **Founder's Gold Medal for the Best Outgoing Student**, Manipal University — 2018
- **Summer Undergraduate Research Grant for Excellence**, Indian Institute of Technology Delhi — 2017
- **Avery Dennison InvEnt Scholar**, Avery Dennison Foundation — 2015

- **GE Foundation Scholar Leader**, General Electric Foundation 2015
- **4x Annual Academic Excellence Award**, Manipal University 2014 - 2018

Patents

1. J. Apte, R. Harley, **C. Manchanda**, L. Koolik, and J. Marshall, "Systems, methods, and program products for reducing air pollution for one or more pollutants in a locality." U.S. Provisional Patent Application No. 63/877,812, filed: September 08, 2025.
2. J. Apte, R. Harley, **C. Manchanda**, J. Marshall, and A. Turner, "Systems, methods, and program products for detecting emissions of an airborne pollutant on a hyperlocal scale." U.S. Provisional Patent Application No. 63/864,040, filed: August 14, 2025.

Invited Talks and Conference Presentations

- **European Geosciences Union (EGU) Annual Meeting**
  "Planning-Oriented Receptor Modeling: Apportioning Emissions Reductions Required for $PM_{2.5}$ Attainment"
  Vienna, Austria | *Highlight Talk* — May 2026
- **Gordon Research Seminar & Conference in Atmospheric Chemistry**
  "High-Resolution Inverse Modeling of Urban Air Pollution Emissions Using Multi-Platform Observations"
  Newry, ME, USA | *Talk + Poster* — August 2025
- **Massachusetts Institute of Technology, Department of Urban Studies and Planning**
  "INFE^{2}R What Drives Urban Pollution: Hyperlocal Sensing and Inverse Modeling"
  Cambridge, MA, USA | *Invited Seminar* — August 2025
- **Health Effects Institute Annual Meeting**
  "High-Resolution Urban Emission Mapping: Bridging Gaps Between Inventories and Hyperlocal Observations"
  Austin, TX, USA | *Talk + Poster* — May 2025
- **European Geosciences Union (EGU) Annual Meeting**
  "Connecting Urban Black Carbon Emissions and Measured Concentrations: A Fusion of Hyperlocal Monitoring and Bayesian Techniques"
  Vienna, Austria | *Invited Talk* — April 2025
- **Stanford University, Department of Earth System Science**
  "INFE^{2}R What Drives Urban Pollution: Hyperlocal Sensing and Inverse Modeling"
  Stanford, CA, USA | *Invited Seminar* — March 2025
- **International Society for Environmental Epidemiology (ISEE) Conference**
  "Enhancing Exposure Estimates in Urban Environments: Integrating Mobile and Fixed-Site Black Carbon Measurements to Bridge Spatiotemporal Gaps"
  Santiago, Chile | *Talk* — August 2024
- **Health Effects Institute Annual Meeting**
  "Refining Urban Exposure Estimates: A Modeling Approach Melding Mobile and Fixed-Site Observations"
  Philadelphia, PA, USA | *Poster* — April 2024
- **American Geophysical Union (AGU) Annual Meeting**
  "Spatiotemporal Modeling of Black Carbon Concentrations: Combining Mobile and Fixed Site Measurements with Tailored Compressive Sensing"
  San Francisco, CA, USA | *Poster* — December 2023

Teaching

- **Engineering Cluster Leader**, UC Berkeley — Fall 2024 – Spring 2026
  First-time Graduate Student Instructor Teaching Conference
- **Graduate Student Instructor**, UC Berkeley — Fall 2023
  Air Quality Engineering (CE 218A)
- **Teaching Assistant**, Manipal University — Fall 2017
  Applied Thermodynamics (MME 2201)
- **Teaching Assistant**, Manipal University — Spring 2017
  Computer-Aided Mechanical Drawing (MME 2216)

Academic and Non-Academic Service

- **Peer Reviewer**, *Environmental Science & Technology, ES&T Air* — 2024–2026
- **Student Committee Chair**, *CEE Faculty Search, UC Berkeley* — 2025-2026
- **Student Representative**, Environmental Engineering Graduate Admissions Committee, UC Berkeley — 2023
- **Student Coordinator**, Environmental Engineering Seminar Series, UC Berkeley — 2023
- **Community Outreach Volunteer**, Public engagement on wildfire smoke impacts and air filtration — 2022–2025

Mentoring

- **Undergraduate Research Mentor**, Indian Institute of Technology Delhi 2019–2020
  Supervised Himanshu Patanwala on a research project in CFD modeling of coal gasification; went on to pursue graduate studies at RWTH Aachen.
- **Undergraduate Thesis Mentor**, Indian Institute of Technology Delhi 2019–2020
  Supervised Priyam Sodhiya on a B.Tech. thesis on on-road $PM_{2.5}$ exposures in New Delhi; now Head of Marketing at Zenskar.
